RELEASE 9-A-52 -- FURTHER MEMO. BY DON GREEN 9-A-52

INCREASING AUDACITY...Tell me more...An aircraft company owner said he was amazed at the "--increasing audacity of strange disc-like objects over Los Angeles--Control tower operators at Los Angeles International Airport reported three unidentified objects in the sky last night for a full five minutes..." These objects have been sighted in the same place at the same time between 7 and 8 p.m. for four nights.....(Los Angeles Examiner...August)....

THEY'RE GETTING CLOSER AND LARGER..."40-foot-long solid white light whizzing from south to north--Hundreds of sailors first reported the awsome object...Key West Citizen...7/29/52

Destroyer escorts put to sea on what appeared to be emergency maneuver--Authority says: to investigate Sonor contact outside the three mile limit....Key West Citizen...7/29/52

Huge'saucer 400 feet long.. yellow green...almost sweeps car from highway 81 with its backwash, in Enid Okla...(AP) 7/30/52

Culver City California 'Saucer splits in two...each section keeps on flying independently.....AP...7/30/52

A year old but just released...Cleveland Ohio...Veteran air force pilot whose F-51 fighter plane was attacked repeatidly by a 'saucer...(UP) 7/30/52

FREE ENTERPRISE...It's all yours...Public relations man Bob Denton, today offered $10,000 reward for exclusive rights to the first picture of a flying saucer and its occupants - "--whether friend or foe, human or interplanetary".....Anaheim Bulletin

$10,000 (less tax) for some one with a yen to roam, a sharp eye, and a fast shutter...Keep your camera loaded and handy...When the big moment comes...don't go aboard if its near dinner time...you might be delayed...but give my best regards to the head-man...I mean that literally and sincerely.....

Los Angeles - (INS) "The management of the Los Angeles home show took cognizance of flying saucers today by offering $1,000,000 to the first outer space pilgrim signing an exlusive contract--no strings attached. All the visitor from outer space has to do is present a birth certificate and credentials to prove he is 'out of this world".....Santa Ana Register 8/20/52.....

Don't believe the credentials would be necessary to prove a visitor to be of another world...If there lives and moves...and not of us...a person, shape, or thing...that looks...acts...and think like we do...may the merciful Lord help him out of his misery...long before it becomes necessary for him to even attempt to identify himself to our authorities.....

NORWEGIAN AIR FORCE RUNNING TRUE TO FORM...Denies all 'saucer reports...They seem to have a scientist over there that nobody knows...least wise the Air Force... Anyway he spotted a flying saucer on Spitzbergen island...but the newspapers over there are as garbled up as they are here...The reports read: Flying saucer made by Russia lands on Spitzbergen island...does not land on Spitzbergen island...May have landed...Couldn't have landed...Crash-landed...landed safely.....(Who ever got the last word...placed it)....

NOTHING TO IT...NEVER WAS...AND NEVER WILL BE...Couple of engineers in Los Angeles have the 'saucer problem solved, labeled, and shelved...The whole phenomena is just like lightning or the Northern Lights....

We have two or three full length reports on the finding(?) of these gentlemen .....Ed Schultz sums up the importance of it all in a few pointed words: "A new high in irresponsible 'scientific' happy hooliganism."

PUMPKIN HEADS...Scientist says 'saucers piloted by vegetables because that's the only life...on Mars.....

First inkling we've had that the blasted things were edible.....

UNIQUE EVEN FOR'SAUCERS...Lanaaster, California (UP) Deputy sheriffs saw two 'saucers over Lanaaster...One hovered over the earth for 18 minutes...swinging like a pendulum.....Anaheim Bulletin. 8/25/52....

PALMER COX'S BROWNIES...At Lumberton, N.C., a man said that a thing-ama-jig, about 8 feet long and six wide...knocked some bricks off his chimney...then landed in his yard...Said he saw...or "--what appeared to be a small man about 30 inches high standing beside the object...When I asked if he was hurt, it went away in a whiff, it made a loud noise like air whistling and was gone."......Buffalo Evening News (INS) Credit Ed Schultz...Bflo.

Incidentally...where is all the long feared terror-stricken panic, mad hysteria and mass suicide that was supposed to cast us into a wild and insane chaos...if and when the people discovered that there was something overhead besides ignorance? A commentator says: the public is becoming apathetic regarding 'saucer news....

ADVANCED PHYSICS...This is spectacular...A paragraph from an article in the Philadelphia Inquirer of 7/29/52...States that: "--in the files of the Western intelligence offices are reports that the Russians are perfecting a 'cosmic ray projector' said to be capable of fusing metal parts of planes approaching within 15 miles....

In fiction science magazines, 20 years ago, we read stories covering that sort of thing...It was considered one of the impossibles of the impossibilities...The greatest stretch of imagination...We know now that nothing is impossible...At least we are more sure of it than we were then...But if Russia is in possession of all that she is credited with having, she must rank among the chosen, and we may as well strike for Guatemala anytime now, or underground...And I'm not running...yet

By-the-way...South America is quite a place...according to 'The Amazing Amazon' writeup in Sept. Readers Digest.....

****

THE PROGRESS OF SUBSIDENCE...locally..."--there was nothing leisurely about this week's tide or the progressive effects of land sinkage--" Press Tele.

From Long Beach to Venice a 7 foot tide washed too far ashore to be blandly ignored...Extensive diking may be necessary....

Miami Daily News (UP) - "A University of California oceanographer has reported the discovery of a submarine mountain more than 10,500 feet high in the Pacific Ocean off the coast of Mexico....Credit H. M. Powers....

Like a pot of boiling mush...Sinks down in one place and bubbles up in another.

"A rumbling noise accompanied by a jar (At El Centro) today --C.I.T. seismological lab. said: no quake recorded.....Santa Ana Register (AP) 8/16/52.

Sonic Explosion over the San Gabriel Valley...The A.F. says there was a jet over the valley about that time.....Maybe...We've had a number of such blasts... Nothing been proven as yet...definitely.....S-A-R. - (AP) 8/16/52

NOT A REPEAT PERFORMANCE...we hope...but, 1,873 years ago, Pompeii and Herculaneum surrendered their place on the map of Italy, under the direct influence of Mt. Vesuvius...Today? "A strong garlic-like odor emanated from the center of the city (of Naples) and from the waterfront." ...S-A-R. 8/16/52.....Authorities can't locate the source...Officials hint...'May be...Volcanic.....

PLEASE REPEAT...MESSAGE NOT CLEAR...A mysterious blast rattled the buildings at the El Toro Marine Air Station about noon, 8/28/52..."Marine officials said the blast did not occur on the base, but must have been near...All aircraft accounted for."... ..S-A-R.....

...Outer space visitors identifying themselves...?

WHAT SCIENCE DOESN'T KNOW...is what the effect of atomic bomb fission products will be...later...We have only the 'kick-back' of a few years.

Radioactivity, once released...can never be destroyed. Scientific advancement is a wonderful thing, so is radioactivity...controlled...But, personally I have no craving to be hustled into premature senility by a group of precarious eager beavers, bent on releasing pentup forces on the unsuspecting....

It may not be as virulent as we presume to make out. But ever now and then the boys let slip an unpremediated remark that causes us to speculate on just how sure they are of the consequences of possible overconfidence. What I mean is: it sounds as though the men in the 'know' were getting justifiably uneasy: How long will this fission action continue? And how much radioacitvę poison can we take? What it does to this generation is our own grief...But how about the next and the next? We will still be responsible.....

WHEN WE SPEAK OF AGING...we count years...In case you didn't notice it...this is interesting: Chicago July 18, (AP) A four-year-old girl, who weights only 7-3/4 pounds, is dying of old age at the University of Illinois research and educational hospital.

The child is a victim of progeria, or premature senility. Doctors at the hospital said it is one of natures rarest ailments. Both its cause and cure are unknown.....Spokane Chronicle.....Cr. W.E.P.

D.G.

The CYPRUS MAIL, Nicosia, prints a London dispatch to the effect that Saucers are reported on the wing over South Africa and Peru (observations by airline pilots and by African natives) --- Over Atlanta, Ga., a red, white, and ble saucer; observed by six policemen --- Bright yellow light for an hour over Elgin, Ill. Air Force and Ground Observer Corp cooperated but could not identify --- The Jerusalem Post reports bright green eliptical object with a revolving belt, over Haifa --- Rapid City Journal prints dispatch from Seoul with several reports of sky objects over Korea and Japan --- Watkins Glen, N.Y. Three observers saw flying saucer plunge into Seneca Lake.

Sketch of Saucer (landed) seen about 30 ft. from highway by Herbert Long of Kutztown, Pa. corresponds strikingly with instructions given by the MP Controls (for building an experimental model) - half-sphere, movable ring with "jets", & aerial.

Two Sabre Jet fighter planes "fly through" a Saucer (Chic.Daily Trib., Sept.3). According to our info., this would be a saucer in first staes of "materialization"; they are extremely substantial on other occasions. But every kind of hasty generalization will be drawn from this incident by the metaphysical illiterates.

Twenty sightings reported over France during a recent week-end. lesser number over other countries.

Patent applications for disc-shaped 'flying machines' date back more than forty years - also, all the great nations are said to be trying to produce such craft. So, a few of these experiments may get into the air occasionally. We must allow for this possibility - but it is NOT the answer to the saucer problem.

RECOMMENDED: The Congressional Directory, 942 pgs. latest issue. address the Supt. Documents, U.S. Printing Office, Washington, D.C. $1.50. Names and addresses of a great number of persons holding governmental positions etc. Invaluable if you wish to write, send material or requests... such as our "public Information" bulletin ---

The Human Atmosphere (the Aura) by Walter J. Kilner. 2nd Ed., 1926. Out of print and difficult to obtain. This copy in practically new condition. $15.00. For sale by BSRA Hdqrs.

We acknowledge with many thanks, the gift of Assoc. M.D. Lewis to BSRA, of "Edison, His Life and Inventions", by Meadowcroft; 2 vols., difficult to obtain.

Correspondence invited: Associates Mrs. Edith A. Cottee, Harrison Park, Julian, (San Diego Co.) Calif. -- Mrs Josephine Smallwood, 1007 Stewart, Seattle, Wash. --- Mrs. Thelma Vennigerholz, 111 So. Asbury, Moscow, Idaho. --- For other names see RR viii-2, July-August, page 18.

ORGONOMY: The RR Editor would like to hear from some Associate who has had personal experience with the Orgone Energy Accumulator (the 'Orgone box'). ml

MEMO. of Geological Faults, Sou. Calif. from Kern Co. line south (of interest to Associates living in the area):

The major active inland fault crosses the Kern Co. line near Gorman, thence S.E. to Palmdale, Valyermo, Keenbrook, Arrowhead Springs, (near) San Bernardino, to Mentone, Yucaipa, bends east at Cabezon, then south to near Indio (end of active fault. Dead fault continues south along east side of Salton to Niland, crossing border north of Tecolote, Mex.

Another major active fault begins in San Bernardino area, thence to San Jacinto, to Baptiste, thence in straight line to to El Centro, Heber, Calexico.

Fault line marked "probably active" runs SE from San Dimas area, to near Lake Elsinore, takes up again near Nellie, to Mesa Grande, to Julian. Inactive fault from Julian to border. A third short active fault runs from Sawtelle to Gardena to Long Beach; branch from Sta. Monica to Gardena.

The whole area from the first great fault line metioned, to the coast, is of course scored by innumerable "dead" faults, some well located, others uncertain.

MEMO FROM H.M. WAGNER, Regional Director BSRA, DeFuniak Springs, Fla. Director HMW has excellent psychic contacts through x mediumistic sources, and quotes from them:

"The weather this season will be much more tempestuous than usual ... the atomic explosions have been the cause of this. There is more turmoil in Etherian circles now than at any time during the actual explosions - worry over what is coming next, and a more detailed and intense survey of our planet to check up; hence atmospheric phenomena will increase greatly..."

THE AURAMETER: The 80-page mimeo book on the capacities and use of this instrument (invented by Verne L. Cameron of Elsinore, Calif.) is now ready for distribution. Deals not only with water dowsing but with the delineation of the aura, thought-forms and etheric objects, and with a mysterious force emanated from CONES. Edited by Meade Layne; comments and data from Max Freedom Long and other BSR Associates. Price $3.00.

Saucer sightings are reported in Britain about once in three weeks --- Saucers seen over Formosa on August 4 last --- Seven recent sightings over Lake Charles, La.

Flying Saucers are 'Old Stuff'. Article in Popular Science, May '52. Robert Unger finds 300 ancient accounts. The old-timers had spots before their eyes too - or maybe the Russians were doing it.

'The United States Government, for which the people have only themselves to blame, is deliberately trying to confuse the people on the flying saucers issue,' Stan Farwell, special representative to General Electric, charged at a luncheon meeting of the Rotary Club Thursday in Hotel Sheraton-Gibson. Three of the objects are known to have landed, he said. Farwell related that one man stepped out of one of these contrivances and died on its doorstep. The visitors, he said, cannot yet acclimate themselves to our atmosphere. (Los Angeles paper?)

"Sirs: What's the matter with this country/? We are acting like a rat-terrier trying to pick a fight with a lion. This sending jets after something that can go over 7000 mph is just ridiculous to say the least. The next time these objects appear why not use one of the biggest spotlights we have and send them an invitation by Morse code to land at our biggest airport if they can. If they are Russians we'll soon know it, and if they are from space we surely can use their friendship. Anyone who has figured out how to cross space, I bet, can figure out our signals.

Verna M. Bartel, Hobbs, N. Mex. (Letters to the Editors, LIFE Magazine, Aug. 25, '52). (Clip from Freda Klauber).

(We nominate V.M.B. for President of the Commonsense Society - also for editorship of Life magazine).

Some six years ago the Mark Probert Controls (deep trance mediumship) gave the first and only consistent explanation of the flying Discs (saucers), and this remains perfectly sound and comprehensible in a scientific sense up to the present moment. A mass of data has come in, but none of it invalidates the basic statements of the Controls. However, since it involves the "etheric hypothesis" it will probably never be thoroughly understood by our generation - being uncongenial to Western modes of thinking. But we quote a recent statement by the Control, the Yada di Shi'ite:

"What you call saucers or Discs we call Kareetas (meaning God-man-in-flight). They have been coming to earth since the beginning of solidification of the globe. Earth, like all celestial bodies, has its Guardians, and I refer to them as Etherians, which is not a very accurate term but is the best one known to you. These beings do not necessarily reside on the visible bodies of your heavens, but on their invisible counterparts or etheric doubles. Such talk, however, is unintelligible to the common man and it is useless to speak to him in such terms."

The Yada and other Controls have also tried to explain, that space craft coming from remote bodies (such as the etheric duplicate of Arcturus, e.g.)are constructed of a peculiar kind or grade of matter, the atoms of which are so aligned magnetically that their fields do not fuse. They therefore become weightless (from lack of friction on the atoms), and can be put into a "rapport" with the atoms of the ethers (or space), and the energy is derived from this interaction. The resulting speed is so great that it amounts to a teleportation, and the "crossing of space" is practically timeless. The term apportation has been used as a help in understanding this, but this process is different in several important aspects. All the various aspects of the Disc phenomena, such as the non-substantial nature of some and the steel-like density of others, as well as the lights and colors, subsume under this concept (degrees of conversion to the density ofour plane etc.). This will be intelligible to the (possible) future of our science, but at present is a Sphinx's riddle to most of our 'authorities' and 'experts'.
